

Check list for Bachelor- and Master Thesis

Before meeting each other to discuss your project, please prepare a short paper (max. 2 pages) with the following content:

(1) Potential title of work, your name and contact details

(2) Rationale:

Make it clear why you choose this topic and what kind of discussion contribution you intend to do (research object, recognizing object, possibly discipline / trade terms, and perspective, from which you write the paper)

(3) The objective of your work

Formulate max. 3 goals

(4) Research questions:

Define them as clearly and simply as possible, maximum of 3 research questions as well as any working hypotheses, which will also serve as a guide through your work (at the end you must answer these questions)

(5) Methodology:

How do you want to proceed methodically?

(6) First results

If you have already known some potential results of your work. Here you should describe them briefly.

(7) Planned chapter disposition (only overview)

Send this paper to Prof. Laesser or Prof. Beritelli, and at the same time propose some dates for potential meetings.
